

BACKPACK SPRAYER

Lo máximo en bombeo confortable: el Pulverizador

Ideal for use in greenhouses, agriculture, landscaping, livestock farming, forestry and pest control.

- Ideal for use under the most demanding conditions thanks to the top quality materials and workmanship used to manufacture the sprayer.
- Multipurpose design makes this sprayer perfect for a variety of formula applications.
- Robust, high output pumping system requires less effort from the operator.
- High-quality materials that are corrosion resistant for long life.
- Large tank mouth with deep strainer that reduces the risk of spillage when filling.
- Tank lid with carrying handle and wand clips to make transportation and storage easy. One-way ventilation valve in tank lid prevents the operator from getting splashed by formula.
- Mechanical agitation keeps the formula mixed during spraying. It can be removed when not needed.
- Ergonomic pump handle folds upright for transportation and storage.
- Precision adjustable brass spray nozzle provides spray patterns from fine mist to jet stream.
- Double-braided fiber-reinforced vinyl hose, is chemically resistant and flexible.
- Heavy-duty flow control with large filter for trouble-free spraying.
- Thick, wide, padded shoulder straps allow a fatigue-free spraying.
- Central attachment keeps the sprayer well-balanced.
- Minimal maintenance required. Most service can be performed without tools.
- A wide assortment of accesorioes is available to enhance your spraying performance.

Brass Internal Piston
with agitator

Advanced Series
SP₁₁
by SWISSMEX

kit that includes:

- Flat fan
- Hollow cone
- Full cone

USED MAINLY FOR:

Insecticides

Herbicides

Disinfectants

Medicinal baths
for husbandry

Fertilizers

TECHNICAL CHARACTERISTICS

Pumping handle with two positions: Pumping and transportation / storage.

One-piece tank prevents leaks. HDPE with UV inhibitor for long life.

Powder-coated pump handle resists corrosion.

Less operator effort for easy pressurization.

The precision nozzle quickly adjusts from mist to stream reducing the time taken to spray.

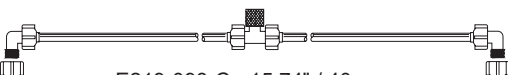

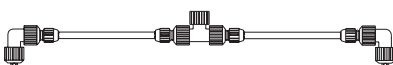

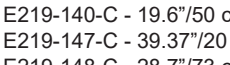

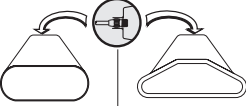

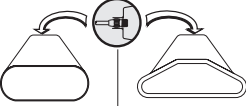

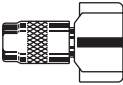

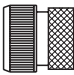

Hermetic tank lid seal prevents spillage.

Deep strainer provides faster, spill-free filling.

Heavy-duty flow control with large filter for trouble free spraying.

Comfort to enhance the operator's when spraying, the tank is ergonomic; the straps are chemically resistant, thick and wide.

ACCESSORIES

Brass spray lances (without spray tip, nut or gasket)  E803-085 - 19.7"/50 cm  E803-400 - 15.7"/40 cm		FVR spray lances (without spray tip, nut or gasket)  E219-195-C with two nozzles, length 19.7" / 50 cm	
Brass extensions (with connector)  E219-500-C - 26.4"/67 cm  E219-510-C - 39.4"/1.0 m  E219-520-C - 47.2"/1.20 m		EXTENSION LANCE: 2-nozzle brass extensions  E219-098-C - 15.74" / 40 cm	
2-nozzle FVR extensions  E219-140-C - 19.6"/50 cm  E219-147-C - 39.37"/20 cm  E219-148-C - 28.7"/73 cm		3-nozzle FVR extensions  E219-138-C - 39.4"-de 1 m  E219-151-C - 59.1 de 1.5 m	
SCREEN SHIELDS  E219-099 - 15.7" / 40 cm  E219-117 - 8.7" / 22 cm		COMPLETE NOZZLES  E803-092-C  E219-610-C  E219-710-C	

TECHNICAL DATA

SPECIFICATIONS	DESCRIPTION
Tank capacity	5.3 gal/ 20L
Carrying Straps	Cushioned with belt
Pumping system	Brass internal piston with agitator
Hose	Fiber-vinyl – reinforced 3/8 inch (95.25mm)
Shut-off valve	Professional ergonomic with filter
Spray wand	Brass 20.5 inch /52 cm

SPECIFICATIONS	DESCRIPTION
Nozzle	Adjustable brass
Output per minute at 45 psi (3 bar)	21.3 fl oz (630 ml)
Working pressure	1-6 bar (15-87 psi)
Net weight	13 lbs / 5.9 kg
Weight with box	13.5 lbs / 6.1 kg
Dimensions	21.2x8.6x15.5" / 54x22x39.5 cm
